

Application No. 10/748,871
Amendment dated March 29, 2010
Reply to Advisory Action of March 15, 2010

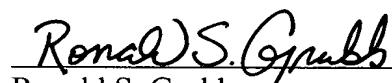

Remarks/Arguments:

This amendment does not add or cancel any claims, and is provided to respond to the Advisory Action of March 15, 2010, and amend claim 1 for clarification only. Accordingly, no new matter has been added or suggested. Upon entry of this amendment, claims 1-60 will be pending, wherein claims 1, 3 and 57 are independent.

The Applicants have further amended independent claim 1 to recite a system and method wherein a display menu, displayed in a first predetermined area of the screen of play list, comprises at least one of the instruction icons to *set and reproduce* an alternating display such that the plurality of still image files recorded in the recording medium are alternately displayed. Specifically, with reference to the exemplary description of Applicants' Fig. 44 and Fig. 45, the exemplary instruction icon comprises an icon to set and reproduce a slideshow with a plurality of still images recorded in the recording apparatus.

In the Advisory Action of March 15, 2010, the Examiner points to the icon(s) of Wolff as describing such instruction icon(s) as recited by the Applicants. However, the Applicants assert that the thumbnail image 110, as provided in area 102 of Fig. 1 in the Wolff reference, is simply provided to browse or navigate a media object, and not to set and reproduce an alternating display as recited by the Applicants.

Respectfully submitted,

Ronald S. Grubb
